STORYLAND VALLEY

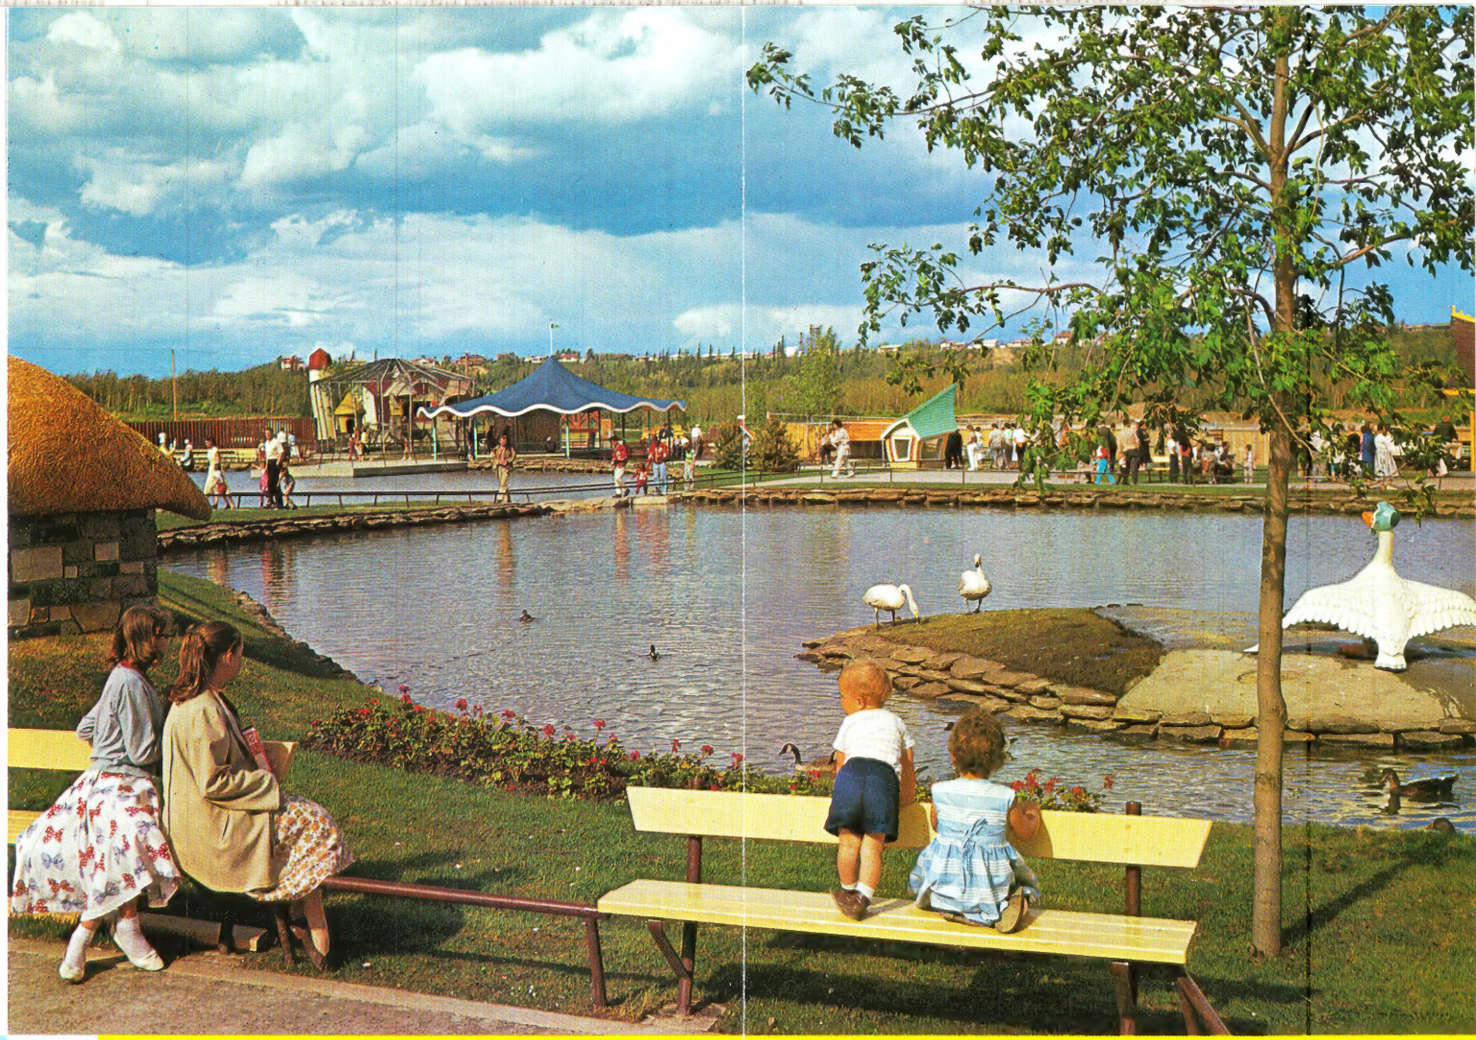
Picturesque STORYLAND VALLEY . . . a world of make-believe transplanted into a modern setting of living reality. Into four and a half acres of parkland development has been incorporated all the fantasy of a story-book fairyland to amuse and delight both children and adults.

See such story-book characters as Three Men In A Tub, Humptey Dumptey, Noah's Ark, the Crooked House, and many others. 220 animals and birds in real life are on display.

Amid a picturesque setting of miniature lakes and lagoons, lunches are served daily on large patios with tables and chairs for the public convenience.

The City of Edmonton extends a warm and sincere welcome to you to visit the Children's Zoo, one of the most outstanding attractions on the North American continent. Once you have visited STORYLAND VALLEY you will want to return again and again.



DUCK ISLAND

Here is a perfect setting for many different types of water fowl, swans, geese, pelican and others. On the island MOTHER GOOSE is monarch of all, as she surveys the beauty and fantasy of STORYLAND VALLEY.

THREE LITTLE PIGS

One has a house of straw — the second of twigs — and the third of bricks. A replica of the story-book setting where three live pigs take refuge from the mythical Big Bad Wolf.
